## MORE CAVES IN ONTARIO TUNNEL

Small Amount of Water Through Drain Holes Indicate It.

NEWHOUSE IS RETICENT

FEDERAL COMPANY AWARDS DEVELOPMENT CONTRACTS.

(Special to The Herald.)

Park City, May 1.—While it has been given out that the work of drifting around the cave-in in the Ontario tunnel was a success and that the great S. Swansea S. Swansea S. Swansea Sunshine

nel was a success and that the great S. tunnel would soon be open again, those U. who are working in the tunnel state Uta that there is now every indication that the cave around which they have drift. ed is not the only one and the chances are that the beginning only has been made in the work of reclaiming the lost Ing When, within a few feet of the tun-

nel, as has been stated before, a heavy bulkhead was made to hold the water and it was decided to drill through and tap it by means of pipes and valves
put into the face. The valves have been
put in and there seems to be but little
water coming out, so little indeed, that it is an absolute certainty that the tunnel must have caved in other places since the flow was stopped by the first cave.

The flow was stopped by the first cave.

Mont. Ton.

cave.

The gravity of the affair can only be really appreciated by the people of Park city who have noticed the effect upon the town since the Ontario was forced Ton.-Bel. Ton.-Bx. Ton.-Mid.

is believed by all, but that it will take a long time now, is conceded. The fact that the ground has caved beyond the present cave is an indication of what will undoubtedly occur if the water is

When this report was submitted t, amount of water flowing through the pipes in the bulkhead was concerned, there was foundation for it. The flow Indicates that there are obstructions farther back in the tunnel, and, while Mr. Rood did not wish to make a positive statement, it is quite certain that the first cave will now be caught up and the obstructions. investigations ahead will determine future moves.

#### FEDERAL COMPANY CONTRACTS

#### Management Orders \$3,000 Worth of Development Work Done.

Contracts for new work at the Federal Mining company's properties in Beaver county aggregating more than \$3,000 were awarded by Manager J. E. Meyer yesterday, and, as they call for than fifteen men, it means that some-thing is going to be accomplished. When the work called for in these con-tracts has been performed others will be awarded and it is confidently excted that before the season is over e mine will have been sufficiently sened to justify the regular shipment

The lower tunnel is to be continued s of ore are ahead. The ledge, which is a mammoth one, is also to be felt of at different points by cross-cutting from the tunnel and at the same time the shaft will be put down still deep-

By those best posted on the character of the Federal company's property it is said to be simply a matter of development to make it one of the best mines of Beaver county. Old surnew ground and at greater depth.

### NOT READY TO TALK.

#### Samuel Newhouse Reticent on Purchase of Ground West of Lake.

"It is quite irue," said Samuel Newbouse, who was stated to have acquired ground on the west shores of Utah lake for a site on which to erect ore reduction works, "that ground has been purchased by Mr. Hanchett—the records show that there is no use to deny it. show that there is no use to deny ittime. Nothing definite has yet been decided concerning the location of the new works for the Bosten Consolidated and so there is really nothing in shape to talk about as yet."

Mr. Newhouse said it only would be a few dark till be had a tolly would be

a few days till he had determined what would be done and then he would be willing that the public should have the

### SAM DOWSE FROM NEVADA.

#### Says Miners Did Not Drive Him Out of Goldfield.

of Goldfield.

Sam Dowse, ex-deputy sheriff, who was reported by the Goldfield papers about two weeks ago as having been compelled to leave that camp by Colorado miners, says the story is untrue. He came in from Nevada by way of Las Vegas yesterday morning and stated that while a number of forcign miners tackled him while at Goldfield and told him he would have to leave, he gave them to understand that he was an American and in his own country, and he would like to see some one or some crowd make him move on until he was ready to go.

"Because of their threats," said Mr. Dowse, "I stayed a day longer than I had intended to and then pulled out for Bullfrog. I saw some of the same bunch down there, but I was not molested."

Mr. Dowse says that for the past two weeks or more Bullfrog has been the whole thing. Goldfield has suffered a genuine exodus and that town no longer claims over 2500 persons, as against more than twice that ten days or so ago, There is a regular procession into the country addiacent to the mines in which the best strikes have been made, and when Mr. Dowse left Las Vegas he and his partners had no trouble at all in disposing of their team and outfit at a good figure.

MINING STOCK EXCHANGE.

Week Opens to Light Business and Slight Evidences of Strength.

For Monday trading on change was higher than has been neithed seven less considered with the break abroad, closing at 29.556 growth the market of market of 12.13 shares of stock, with a selling value of 2.35 and seven started off at 15% and sold a back to Fe, while fluid reached even less considerately and from SMG at the start it was steadily families down until it had sold at 18. # STOCK MARKET

Downward Course of Prices Decisive-

narket was a striking demonstration Wis of how financial affairs adjust themselves to any contingency that is foreseen with sufficient clearness. The At the meeting it was decomposed as the sum of shareholders in the company and get their consent to the levying of an assessment in order that work may be resumed at the property, which is located directly west of the Valeo. It believed that all interested will consent to the proposed voluntary assessent to the propo fective as to turn the demoralized weakness into a quiet exuberant show of strength. An important part of the Mrs. McEnery is the largest share-holder in the company and the business as outlined has been attended to in order that no delays might result.

Hollenbeck and with him are J. Oberndorfer, a stock broker and member of the Salt Lake board of education, and R. W. Nicol, another prominent citizen which were put out during the short account which were put out short account which were put out dur-ing Saturday in almost unlimited amounts. The volume of outstanding short contracts proved so excessive that the expected offerings today failed to provide material for this potential depression of the provide material for the provide mand and before the close the shorts were scrambling to secure supplies to make good their contracts. The meas-ure of the inflation of the market is thus taken and the downward course of prices decisively checked, having reached a point where a sufficient de and intervened to absorb the selling. There can be no doubt that a very large part of the buying today was as a measure of protection by financial interests powerful enough to take these steps to save themselves and their associates from the serious effects threatened by the decreased plane in prices

"Los Angeles will do much of the smelting for the new district for two reasons," said Mr. Joseph last night. "One of them is that it is easier and cheaper to haul the ore down hill to not to mention the fact that the smelt found not far distant from Los Ar ing point for the district and Los An geles will get most of the commerce San Francisco has already taken second

Tonopah Ore Shipments.

The ore shipments over the Tonopah railroad last week aggregated 2,220 tons, of which 123 tons came from Goldfield. The shipments are divided as follows: From Tonopah—Tonopah company, 1,238 tons; Tonopah Extension, 275 tons; Montana-Tonopah, 288 tons; Midway, 116 tons; Belmont, 170 tons.

From Goldfield—Goldfield Ore Sampling company, 121 tons; Conner & Steinheimer, 2 tons.

city yesteroay, as not seen as follows: Silver, lead, gold and copper ores, \$28,200; base bullion, \$38,700.

The settling price of copper for this week has been fixed at 143sc per pound, a drop of 1sc from last week's price.

Thirteen cars of ore from Tintic and thirteen from Nevada were reported at Ore receipts at the Pioneer sampler esterday included two cars from Alta. wo from Bingham, two from Tintic and one from Nevada. J. Tod Goodwin has been selected by the officials of the mining exchange as fficial caller, to succeed Ralph Guthee, who entered the employ of the government yesterday as internal revenue ispector. The latter leaves for Omaa today, where he will report for duty. Ira B. Jones, former caller of the mining the control of the control of the mining the control of the control

### GRAIN AND PROVISIONS.

GRAIN AND PROVISIONS.

Chicago, May 1.—Excellent demand for cash grain at outside markets imparted strength to wheat today. At the close May was up 2%c and July up 1%c. July corn shows a gain of %c. Oats are up ½c. Provisions are off 2½a16c.

Sentiment in the wheat pit was bullish from the start. At the opening July was unchanged to %a%c higher, at \$2 to \$2%a2.24. Comparative firmness at Liverpool. notwithstanding weakness here Saturday, was one reason for the improved tone. Another factor was a decrease of 1.464.000 bushels in the amount of breadstuffs on passage. Shorts were moderate bidders for both May and July, but offerings were very light. Later as a result of predictions of warmer weather the July option eased off temporarily, the price declining to \$1%a62. There was a quick recovery, however, from the slight setback, the strength of May being the rallying force. Trading at no time was of large volume, disputeting rumors regarding the stock market having a tendency to check speculation in the grain pits.

A reduction of 1.888,000 bushels in the visible supply of wheat had a strengthening effect. But the factor most largely responsible for the late strength was the sharp advance in the price of cash wheat. Advices from Minneapolis and Kansas City reported active demand at higher prices for wheat for selling pur-

gnate ONE ASSAYER.

poses. In sympathy with strength in these markets the May option here advanced to 90, while July sold up to 83%. The market closed strong with prices almost at the highest point of the day, final quotations being at 83% on July. May closed at 85%. Total deliveries today on May contracts were estimated at about 500.000 bushels. Clearances of wheat and flour were equal to 18,000 bushels. Primary receipts were 374.000 bushels. Sentiment in the corn pit was decidedly bullish. July opened at 18% toward at 45% 100.21 receipts were 100 cars, with one contract.

The oats market was weak at the outset, but soon became firm. July opened unchanged to 180 lower at 25% to 25% sold up to 25% 425% and closed at 45% Local receipts were 72 cars.
